ACKNOWLEDGEMENT

First of all, I owe sincere and earnest thankfulness to my supervisor Assoc. Prof. Dr. Şebnem Yücel for her patience, guidance, friendship and also for her challenging critiques that transformed my writing process into a learning process. I am equally indebted and thankful to my co-supervisor Prof. Dr. Hilde Heynen. One year of study period in Leuven under her guidance was invaluable and I am sure that this thesis would not have been possible without her understanding and encouragement. My gratitude also goes to my jury member Prof. Dr. Gülsüm Baydar for her grace and valuable comments. I would like to thank Assoc. Prof. Dr. Erdem Erten not only for his comments as my jury member but also for giving me the idea to write a paper on AEG which was the inception of this thesis. I would like to express my gratitude to Assoc. Prof. Dr. Deniz Güner and Assist. Prof. Dr. Ufuk Ersoy, they did not have chance to participate in my jury but their remarks helped a lot to enlighten my way. Assoc. Prof. Dr. Hedwig Schwall merits special thanks for her scholar generosity in helping an architect to find his way in European Literature.

This thesis took the advantage of three archival works. In these archives there were several people supported me to find the right material. Martina Weiß in Klingpor Archives in Offenbach-am-Main, Ieva Akule in Mathildenhöhe Darmstadt, Claus Bründel and Jörg Schmalfuß in TechnikMuseum Berlin helped me a lot with their sincerity and scholarship. These archival visits were done in my one year exchange period in *Katholieke Universiteit Leuven*. Sila Turaç Ayanoğlu in İzmir Institute of Technology and Anouck Brouwers and Pascale Conard in *Katholieke Universiteit Leuven* lent their kind assistance related with all bureaucratic staff. This exchange would remain just a dream without their help. While studying on the thesis lots of interesting things have happened. One of them was a moment of *anagnorisis* for me when I saw that I was born exactly at the same date with Peter Behrens and I would like to take this opportunity to thank to 'life' which is always full of surprises.

This thesis is written in two cities; Leuven and İzmir. I want to thank to all of my friends in Leuven that shared my good and stressful times and made me to feel at home. Some of these wonderful friends hosted me as well at their places during my trips around Europe. Next to their friendship I owe sincere thanks to Nicola, Serena, Marco, Guiseppe, Manna, Eva, Marie, Murat, Arda and Gamze for their kind hospitality. In

particular, I would like to thank to Nicole Nana for her help in translating Richard Dehmel's poem *Eine Lebensmesse*. Also my thanks extend to my uncle Gündođan for his kind support during my studies in Leuven. Writing a thesis needed sacrifice from the time that I could spend with my friends and my family in İzmir. I wish to thank to all of my friends in İzmir for their understanding and best wishes. I am very grateful for the friendship and cheerfulness of my ex-instructor and new colleague Hasibe Velibeyođlu. Finally and most importantly, I would like to thank to my family Ulař, Seher, Turan and Anna not only for their faith in me but also for standing by me through the good and the bad times, to whom this thesis is dedicated to.
